**PROGRAMME FOR APPROXIMATION OF THE NATIONAL  
LEGISLATION TO THE LEGISLATION OF THE EUROPEAN UNION  
FOR THE YEAR 2003**

Skopje, April 2003

# **Summary**

## **Preface**

*With the signing of the Stabilization and Association Agreement between the European Community and its member-states, and the Republic of Macedonia, on April 9 2001 in Luxembourg, and the entry into force of the Interim Agreement in June 2001, intensified is the process of European integration, economic and structural reforms, the process of approximation to the European legislation, and, through this, creating a new climate for a faster economic, political and democratic development of the country.*

*The Stabilization and Association Agreement, as well as the Interim Agreement with the EU, which entered into force on 01.06.2001 contain clearly determined obligations which the Republic of Macedonia needs to fulfill if it wants to walk successfully the road of integration in the EU. The Article 68 of the Stabilization and Association Agreement clearly contains in itself the obligations for approximation of the national legislation towards the EU legislation, and its implementation within the frameworks of the legal system of the Republic of Macedonia.*

*Considering the fact that the second anniversary from the signing of the Stabilization and Association Agreement is here, the Republic of Macedonia has entered deeply into the process of approximation of the national legislation to the EU legislation, creating its own experiences and directions for this process.*

*The programme for approximation of the national legislation to the EU legislation for 2003, according to its structure, provides continuity of programmes for approximation of legislation for 2001 and 2002.*

*When preparing the document, special emphasis was put on its complementarity with the Programme of Work of the Government of the Republic of Macedonia for 2003. Namely, all activities of the Government of legislative nature, which are planned to be implemented in the course of 2003 were assessed against the European legislation, i.e., the legal measures of *acquis communautaire* which need to be taken into account when implementing the planned legal projects. The objective of this was for the Programme for Approximation to the European legislation to be complementary with the Programme of Work of the Government.*

*Furthermore, with the Programme for Approximation of the National Legislation to the EU legislation for 2003 a qualitative step is made in its structure. Namely, the Programmes for 2001 and 2002 had followed the structure of the White Book for Integration of the Central and Eastern European countries to the internal market of the EU (Cannes, 1995), while the Programme for 2003 was structured upon the division of the *acquis communautaire* according to the screening structure or the negotiation structure after the example of the candidate countries. This slowly introduces the standard code of communication with the competent services of the European Commission and gradual adaptation of the line ministries to this structure of *acquis communautaire* in 31 chapters, out of which 29 chapters are operational in this phase.*

*In the course of preparation of the Programme for Approximation of the National Legislation to the EU legislation for 2003 each Ministry made a revision of the EU measures which are under their competence, revision of the timeframe for adoption of the laws, taking into account their own capacities, the existing technical assistance and the budgetary funds.*

*The work in the course of preparation of the document showed a qualitative step forward in the perception of the European legislation, its complexity and assessment of its fiscal and institutional impact.*

## **(2) Annex on the area of justice and home affairs**

This part contains a list of conventions and other relevant documents which are already incorporated in the national legislation in the area of justice and home affairs.

## **(3) Institutional infrastructure for running of the process of approximation of the national legislation to the European legislation**

*This part of the document gives an overview of the existing institutions and bodies in the Republic of Macedonia, which are directly involved in the process of approximation to the European legislation. The schematic overview of the structure is presented through a special organizational chart enclosed to this part. Special priority in the following period is further strengthening of this structure, in order to successfully implement the activities planned in the Programme.*

#### ***(4) Schedule of laws according to the planned timeframe (quarters) for adoption by the Government of the Republic of Macedonia, for the year 2003***

*To facilitate the monitoring of the dynamics of activities planned for 2003, provided is a list of legislative projects, set according to the planned timeframe (quarters) for adoption by the Government of the Republic of Macedonia.*

#### ***Support to the implementation of the Programme for approximation to the European legislation for the year 2003 by means of information technology and design of a monitoring mechanism***

*Programme for approximation to the European legislation is a cumulative overview of the activities to date, related to the process of harmonization of the national legislation to the European legislation. It means that within itself it contains all legislative projects adopted in the past period, for which the competent ministries declare harmonization with the adequate EU measures. Furthermore, a certain number of ministries have developed a projection of their activities not only for 2003, but also on a mid-term level, until 2007. Precisely the correct projection of implementation of the EU measures and planning of the resources prove to be one of the basic problems which the Ministries faced when preparing the Programme. There is still acute lack of good knowledge and interpretation of the European legislation, studies for impact assessment of the new legislation, through which the existing resources would be effectively directed, and realistic planning of the activities would be made.*

*The primary responsibility for the implementation of the Programme for approximation to the European legislation for the year 2003 is borne by the competent ministries as carriers of the relevant activities.*

*The implementation of these activities is supported by the Sector for European integration through appropriate information technology. Namely, within a Phare project for support to the Sector for European Integration, prepared is a CD-ROM which is a tool in the everyday work of the Ministries, regarding the approximation to the European legislation. Namely, in one place provided is an overview of the EU measures, according to the screening structure and possibility for easy search according to chapters and themes. Furthermore, that CD-ROM features comparative matrixes of the European with the Slovenian legislation and vice versa, provided are the full texts of the primary European legislation, useful documents, handbooks, etc.*

*Special bilateral meetings were organized with each Ministry, where practical instructions were given on how to use and search the tool.*

*Considering the fact that the data contained in the programme are a part of a database, regular communication with the line ministries will provide for its constant updating, and by it generation of reports on the progress in the implementation of the programme. It is planned to prepare such type of reports on a quarterly basis.*
